

Shipping Policy

The Style Space LLC

Last updated: October 17, 2026

Overview

The Style Space LLC offers curated home décor bundles for purchase through www.stylespace.studio. We also assist clients with sourcing furnishings and décor from independent third-party vendors. Shipping arrangements depend on the type of order. Curated bundles are sold through our website; individually sourced products may be fulfilled and shipped directly by the applicable vendor.

1. Order Processing and Fulfillment

Curated bundle orders are processed following order confirmation. Processing time and availability may vary depending on the contents of the bundle. For individually sourced products, the supplying vendor may process and fulfill the order directly. Custom, made-to-order, or oversized items may require additional time. Any specific processing estimate provided with an order is an estimate, not a guaranteed date.

2. Shipping Methods and Delivery Estimates

Shipping methods depend on the product, size, destination, and fulfillment provider. Orders may be delivered by parcel carrier, freight carrier, or a scheduled delivery service. Estimated delivery windows will be communicated on the product page, at checkout, in a quote, or during order confirmation when available. Delivery may be delayed by inventory changes, weather, carrier disruptions, or other circumstances beyond our reasonable control. Items ordered separately, or sourced from different vendors, may arrive in separate shipments.

3. Shipping Charges

Applicable shipping costs will be presented at checkout for website purchases or disclosed in a quote or invoice for separately sourced products before the customer approves the purchase. Charges may depend on product dimensions, destination, shipping service, and vendor requirements. Oversized items may involve additional freight or special-delivery fees. Please review the total quoted amount before placing or approving an order.

4. Tracking and Delivery Arrangements

Tracking details will be provided when available from the carrier or vendor. Freight or large-item deliveries may require scheduling and an adult to receive the shipment, as directed by the carrier. Please review any delivery instructions provided with your order and inspect packages promptly upon arrival.

5. Damaged, Defective, or Missing Items

If an item arrives damaged, defective, or incomplete, please contact melinda@stylespace.studio as soon as possible. Include your order number or invoice reference, a description of the issue, and photographs of the item and packaging where possible. For freight deliveries, note visible damage on the carrier paperwork when feasible. We will review the concern and, where a third-party vendor fulfilled the order, coordinate with that vendor as appropriate. Available remedies depend on the circumstances, applicable law, and any disclosed product-specific terms. Prompt reporting helps us investigate carrier and vendor claims; it does not eliminate rights provided by applicable law.

6. Backorders and Availability

If an item becomes unavailable, backordered, or discontinued after an order is placed, we will contact you with the information available and discuss the applicable options, which may include waiting, selecting an alternative, or cancellation and refund where appropriate. We will not substitute a different product without your approval.

7. Shipping Addresses

Customers should verify shipping addresses before submitting an order. If you notice an error, contact us promptly. Address changes may not be possible once an order has entered fulfillment or shipped. Additional carrier charges arising from a requested address correction may apply if disclosed and approved.

8. Shipping Destinations

Shipping is currently offered to addresses within the United States. Availability may be limited for particular locations or vendor-sourced products; any restrictions will be communicated before the order is finalized. International shipping is not currently offered.

9. Returns, Refunds, and Design Services

Returns, refunds, and cancellations are addressed in our separate Refund & Return Policy and any product-specific terms disclosed before purchase. Interior design services and digital design deliverables do not involve physical shipping; their scope and delivery are governed by the applicable service description or agreement.
